

## **Natural Gas Safety Coloring Contest**

Show off your coloring skills and help spread the word about natural gas safety. Take a photo and email your creation to support@denovadetect.com to be featured on our website and earn a chance to win a fun mystery suprise!

**Natural gas safety tip:** Natural gas rises, so alarms should go high on the wall, close to the ceiling. Keep them 5 feet away from stoves and 10 feet away from other gas appliances so they work their best!
